

Acceptance Testing

UAT Execution & Report Submission

Date	04 October 2026
Team ID	SWTID-2026-2511
Project Name	Implement Client Script and UI Policy [Incident]
Team Size	5
Team Leader	Ritika L
Team Members	Monisha A, Saranya G, Roshini A V, Yashika K
Maximum Marks	4 Marks

1. Purpose of Document

The purpose of this document is to briefly explain the test coverage and open issues of the Implement Client Script and UI Policy [Incident] project at the time of the release to User Acceptance Testing (UAT). The project applies Client Scripts and UI Policies on the ServiceNow Incident form to control field behavior (mandatory, read-only, visible) dynamically and reduce incorrect data entry.

2. Defect Analysis

Sample values below assume no defects were reported. Replace them with verified counts from the Bug Tracking table once testing is complete.

Resolution	Severity 1	Severity 2	Severity 3	Severity 4	Subtotal
By Design	0	0	0	0	0
Duplicate	0	0	0	0	0
External	0	0	0	0	0
Fixed	0	0	0	0	0
Not Reproduced	0	0	0	0	0
Skipped	0	0	0	0	0
Won't Fix	0	0	0	0	0
Totals	0	0	0	0	0

3. Test Case Analysis

Sample outcomes assume all 10 test cases pass. These are not verified execution results; update them to match the observed test outcomes.

Section	Total Cases	Not Tested	Fail	Pass
UI Policy (mandatory / read-only / visible)	7	0	0	7
Client Script (onChange / onSubmit)	2	0	0	2
Form behavior (new and existing Incident)	1	0	0	1
Total	10	0	0	10

Note: The defect counts and test outcomes are illustrative placeholders only. Confirm actual results before submitting this report.
